PROFESSIONAL SUMMARY

Results-driven Full-Stack Web Developer and BS Information Technology graduate with hands-on experience building dynamic web applications, responsive user interfaces, and RESTful APIs. Proficient in backend development with Node.js, Express.js, and Python, paired with database design and query optimization in MySQL and PostgreSQL. Experienced in component-driven frontend architecture with React.js and modern JavaScript (ES6+), collaborative version control using Git, and API testing with Postman. Quick learner with strong problem-solving fundamentals, eager to contribute to real-world application development, debugging, and deployment workflows.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), React.js, HTML5, CSS3, Vite, Responsive Web Design, Figma-to-Code
Backend & APIs: Node.js, Express.js, Flask, RESTful API Integration, JWT Authentication, Python
Databases: MongoDB, PostgreSQL, MySQL
AI / Automation: OpenAI APIs, RAG, Vector Search, LLM Tool Calling, n8n Workflow Automation
Tools: Git, GitHub, VS Code, Postman, Figma, Webpack, Theme Development, Liquid, Shopify CLI, Online Store 2.0, Shopify Plus, Dawn Theme, Custom Sections/Blocks, Storefront API, Admin API, GraphQL, AJAX Cart & Variant Logic

PROFESSIONAL EXPERIENCE

Zee Outsourcing Solutions PVT LTD — Remote (UK) Jan 2026 – Present
Full Stack Developer

- Developed and maintained responsive full-stack web applications and custom e-commerce modules, pairing JavaScript-based frontend development with backend REST APIs.
- Built reusable frontend components and optimized asynchronous data fetching to support responsive UIs and faster page performance.
- Translated Figma design mockups into responsive, cross-browser-compatible interfaces while collaborating with cross-functional teams.

EDUCATION

Bahria University — Lahore, Pakistan
Bachelor of Science in Information Technology | Sep 2022 – June 2026 | CGPA: 3.29 / 4.00

PROJECTS

Multimodal Web Intelligence & Analytics Platform

Tech Stack: React, Node.js, Flask, Python, ResNet-50, LightGBM, REST APIs

- Developed a full-stack web analysis platform with a responsive React frontend and Express/Flask microservice architecture.
- Integrated automated heuristic extraction pipelines and machine learning classification endpoints to evaluate dynamic URL and DOM payloads.

RAG-Powered E-Commerce Concierge

Tech Stack: Next.js, Express.js, MongoDB Atlas Vector Search, OpenAI APIs,

- Engineered a full-stack AI-powered e-commerce assistant supporting semantic product search and customer support workflows.
- Integrated vector search and LLM tool calling to retrieve inventory data dynamically and generate context-aware responses.

XIV Fashion Store — Custom Shopify Theme (Dawn)

Tech Stack: Shopify CLI, Liquid, JavaScript, HTML5, CSS, Figma

- Built a custom Shopify Online Store 2.0 theme from the Dawn framework with dynamic sections and custom brand styling.
- Developed a shoppable homepage photo gallery with interactive hotspots, quick-view modals, variant selection, and AJAX cart additions with no page reloads.
- Configured dynamic collections and optimized product detail pages within a mobile-responsive UI/UX system.

Shopify Product Configurator & Live Checkout

Tech Stack: Shopify Liquid, JavaScript (ES6+), AJAX API, CSS3

- Developed a single-page product configurator with a multi-step customization flow and live order-summary panel.
- Implemented real-time dynamic pricing, variant calculation, and discount updates, routing configured items directly into Shopify checkout through AJAX workflows.
